## Professional Diploma
Web Design

- Live online classes nationwide
- One-to-one student mentoring
- One evening per week x 10 weeks
- Easy instalment payment plan

Course Content

- Understanding the basics of HTML, CSS and website hosting.
- Using visual and AI software tools to create web pages quickly and easily.
- Working with images, video, fonts and animations.
- Building six professional-quality websites.
- Tracking user visits and interaction, and complying with privacy laws.
- Designing a personal portfolio website and showcasing your work on Linkedin and other platforms.

Course Delivery

- Classes delivered live online on Thursday evenings, from 6:30-9:30pm.
- Only a standard PC or laptop and Internet connection required.
- Opportunities for one-to-one interaction with lecturer.
- Class recordings available for later study and catch-up.
- Professional-quality notes covering all topics available to support class videos.
- Feedback provided on project work submitted by students.
- Sample exercise and project files available for download.

Entry Requirements

The programme is ideally suited if you are just starting to work in web design or would like to do so.

Certification

Students are graded according to their performance on in-class exercises, mini-projects, and their final personal portfolio.

Lecturer Profile

Brendan Munnelly has developed websites that serve millions of page views annually.

His educational IT books have sold over 100,000 copies in five languages and earned multiple five-star Amazon reviews.

Career Opportunities

In addition to providing a solid foundation in professional web design, this Diploma Course will equip graduates with career-boosting skills for pursuing opportunities in related areas such as the following:

- Interface design
- Web content creation
- Digital, email and social media marketing
- e-Commerce and Search Engine Optimisation (SEO)
- Front-end software development.

ibat COLLEGE DUBLIN

What graduates are saying

" IBAT Diploma in Web Design is a great course with a very positive learning environment. Along with a very knowledgeable dedicated lecturer. A fantastic experience. 10/10.

Conor Doyle

" I feel I have gained a useful, applicable skill even with this introductory course. I now apply these skills to my job as a Digital Marketer and Social Media Manager.

Jack Quinn

" As a complete beginner, I really enjoyed this course. I found the learning curve just right. The lecturer is a class act from start to finish.

Shane Murray

" I absolutely loved the Diploma in Web Design- my only complaint is that it was over too quickly! The notes and learning materials were easy to follow and in-depth.

Marie O'Sullivan

" The course is very well structured and really achievable. I would definitely recommend it to other students.

Lurdes Teixeira

" The course is very informative. I was very pleased with my results. I am having lots of fun tricking around with websites now.

Rebecca Grimes

" The course definitely helped me establish a solid understanding on how to get a website up and running. Many thanks.

Neil Carder

" Thank you so much for your top-quality teaching and for introducing me to a whole new, wonderful world of web design.

Mateja Rajkovik

" The lessons fun and engaging. It was a quite a lot of material to cover in just 10 weeks, but we all managed to get through it successfully.

Emmet Whelan

" Overall experience is 10/10. From being a total 'newbie' for web development I can now design web pages that look professional and sophisticated.

Ivan Lukenda

" Tutor was very helpful throughout the course in helping me learn. Looking forward to expanding my portfolio of web projects in the future!

Rita Brereton

" Classes were easy to understand and enjoyable. I really appreciated all the helpful resources so I can get better at web design, one step at a time.

Sebastian Ferreira

" This course gives you all the resources needed to start building your own website, with a great tutor that won't hesitate to help you out with any query.

Laszlo Scheers Luque

" A really helpful and interesting course. I was able to finish my personal website and now I have visitors from around the world.

Alexandra Mavrofoti

" The classes were well laid out and explained I would recommend this course to anyone wanting to delve into the realm of Web Design.

Samantha Marah

" I enjoyed completing the Diploma in Web Design that much that I am already looking at completing the more advanced course.
