

# What to expect on your first day

Your journey as a new English language student at IBAT begins with Induction Day, a dedicated introduction designed to help you settle into campus life, meet your classmates, and feel fully prepared before your lessons begin.

During your first day, you will take part in a welcoming and informative onboarding experience, including:

## **A warm campus welcome**

When you arrive, the IBAT team will be there to greet you and guide you through your first steps on campus. You will have the opportunity to meet members of the team and begin connecting with our diverse international student community.

## **Digital onboarding**

Before the induction session begins, you will receive a student handout containing QR codes, useful links, and step-by-step instructions to help you access the student portal and important online resources.

## **Induction session**

You will take part in a detailed 1.5 to 2-hour induction presentation covering everything you need to know before starting your studies. This includes information about IBAT, your classes, course levels, assessment methods, attendance requirements, punctuality expectations, campus facilities, and key policies.

## **IBAT checklist review**

At the end of the session, we will go through a checklist to make sure you have all the essential information and feel confident about starting your course.

## **Campus exploration**

You will have time to explore the campus, find your classroom, and familiarise yourself with the facilities and your new learning environment.

## **Coursebook collection**

Before finishing your first day, you will collect your coursebooks so you are fully prepared for your upcoming lessons.

## **City orientation tours**

Your introduction to life in the city continues beyond campus. Every Monday at 11:00 AM, students can join guided city tours to discover local landmarks, learn how to navigate the area, and meet fellow students. Participation is optional.

## **Please note:**

Induction Day is dedicated to helping you settle in, complete your onboarding, and feel comfortable in your new environment. Your regular English classes will begin the following day, allowing you to start your studies feeling prepared and confident.
